

# 2023 Fall Data Science Boot Camp

Introduction

# Welcome!

- Welcome to the Fall 2023 Data Science Boot Camp!
- In this boot camp we will:
  - Learn some python
  - Learn some data science
  - Complete a data science project

## Top two resources

1. Boot Camp Website,  
<https://www.erdosinstitute.org/programs/fall-2023/data-science-boot-camp>
2. Erdős Institute Slack
  - a. Look for fall-2023-cohort channel

# Lecturer

- Matthew Osborne, PhD
  - Boot Camp Lecturer since 2020
  - Senior Operational Analyst at NetJets
- Graduated from OSU Math in 2020

# Group Project Coordinator

- Alec Clott, PhD
  - Head of Data Science Projects
  - Sr. Principal, Quantitative Analytics and Data Science at Gartner
- Graduated from OSU Political Science in 2021

# Lead Teaching Associate

- Steven Gubkin, PhD
  - Lead TA
  - Creating more math focused supplementary content
- Graduated from OSU Math in 2016

# Your contact for access

- Amalya Lehmann, PhD
  - PhD in Music History, Literature, and Theory from UC Berkeley
- Your top contact for:
  - Slack channel access
  - GitHub repository access

---

---

# The Erdős Institute Projects

Fall 2023

---

---

# Goals

- An opportunity to work with real-world data and produce findings in a short time-span
- Focus on substantive areas (quant finance, wearables, health, policy, UX, etc.) and techniques (NLP, time-series, etc.)
- Building your portfolio is crucial in the data science market, provides a framework for job interviews

# Projects

- Portfolio-worthy data science project/product
- Includes:
  - 5-minute overview video and presentation
  - Annotated GitHub
  - Executive Summary
- Reviewed by project judges
- Top 5 projects will present to all participants in our closing ceremony for the Fall 2023 Bootcamp

# Team Formation

# Background of Bootcamp attendees

- Hundreds of students from all over the world
- Some of you may know other attendees, others of you won't
- Many different backgrounds (subject areas, experience with coding)\*
- Various types of data science career goals
- Various goals for the bootcamp
- Various goals for the projects

\*And that is totally fine and expected!

# Read these documents

<https://www.erdosinstitute.org/programs/fall-2023/data-science-boot-camp>

(Project Information at Bottom)

# Project Expectations

# Overall Structure

- **Team size:** 3-4 people
  - Can choose group or...
  - Can be matched with others based on your job goals or data science interests
- **Goals:** “portfolio” project
  - Can be used in job interviews (when the time comes)
  - Results have business value
  - Communicate to lay-people **and** team of data scientists
- **Structure**
  - Group meetings -- each group decides how much time they want to spend
  - Weekly office hour w Alec (open to all)
  - Check-in with project mentor on a regular basis (15-30 min)

# Project Requirements

- **Instructions at the bottom of the 2023 Data Science Bootcamp Page**
- **In order to get an Erdős certificate, you must complete a data science project start to finish**
  - Project must be coded in Python
  - Have an annotated GitHub repository
  - Executive summary of your project results and implications
  - ***For presentation day:***
    - **5-min** pre-recorded PowerPoint presentation detailing project process from start to finish
    - Judges will vote on winners!
    - More info will be given closer to project day

# Your To-Do List

# First Four Important Dates:

## Project/Homework Deadlines

**Sep 22, 2023** **Watch 3 Previous Top Projects**  
11:59 PM Consult the project database, and watch at least 3 previous top projects from Erdos Alumni.

**Oct 6, 2023** **Project Pitch Hour**  
4:30 PM Opportunity to meet with other Erdos Fellows and form teams and propose topics.

**Oct 11, 2023** **Submit Team Proposal or Idea to Project Formation Page**  
11:59 PM If you want to propose a project, or have an idea for a project, submit it by this date.

**Oct 13, 2023** **Finalized Teams with Preliminary Project Ideas**  
11:59 PM Teams need to be finalized by this point. If you proposed or created a project, you must have others in your group. If you did not propose or create a project, you must join an open group.

Note: Times are not accurate, check the course website for the correct deadline times.

Note 2: You can find these dates at the bottom of the course website

# Boot Camp Format: Non-Project Portion

- 11 Live Lectures
- 11 Problem Solving Sessions
- All Zoom links can be found in your Erdős profile or on the course website
- Syllabus and Schedule can be found on the course website

## Overview

The Erdős Institute's signature Data Science Boot Camp has been running since May 2018 thanks to the generous support of our sponsors, members, and partners. Due to its popularity, we now offer our boot camp online twice per year in two different formats: a 1-month long intensive boot camp each May and a semester long version each Fall.

Syllabus

Schedule

# Lectures

- Live lectures 5:30 - 7:00 PM ET every Thursday until 11/30/2023
  - No lecture week of US Thanksgiving
  - Will be recorded and uploaded to the website
  - Will not be able to cover entirety of GitHub repository
- Every lecture jupyter notebook already has a pre-recorded lecture on the website

# Problem Sessions

- One hour to work on problem sets in small groups
- Every Monday 11 AM - 12 PM
  - Except week of US Thanksgiving
  - Will not be recorded
  - Led by Steven
- TAs will rotate between groups to assist and observe
- Each problem session also has a “prep notebook” for those wanting to practice
- Start next week (9/11/23)

# Getting Set Up

- Clone the repository
- Be able to open a jupyter notebook

# The GitHub Repository

- Link can be found on the course website
- Contains all of the educational content for the boot camp

The screenshot shows the GitHub interface for the repository `TheErdosInstitute/code-2023`. The repository is private and has 1 watch, 0 forks, and 0 stars. The main branch is `main` with 1 branch and 0 tags. The repository description states: "This repository contains the materials for the 2023 incarnation of the Erdos Institute Data Science boot camp." The file list includes `data`, `lectures`, `practice-problems`, `problem-sessions`, `.gitignore`, `LICENSE`, and `README.md`. The `README.md` file is selected, showing the title "Erdős Institute Data Science Boot Camp".

# The GitHub Repository - Steps

1. Sign into your GitHub account
2. Clone the repository onto your computer
  - a. Can find instructions in the “First Steps” section of the website
3. Everyday of the boot camp you will need to “pull” the updates to the repository
  - a. Look for “Getting Started with GitHub” in the “First Steps” section of the website
4. Can be useful to make a copy of the folder in your computer for your edits

# The GitHub Repository - 404 Issue

If you receive the 404 Error when clicking repo link:

- Check you are signed in
- Check that you have added your GitHub link to your Erdős profile
- Message Amalya about being added to the repository

# Jupyter Notebooks

- All educational content contained in jupyter notebooks
- Allows combination of Word document style text and python code
- Let's look at an example

# Jupyter Notebooks - Getting Set Up

- Follow Step 3 Under “First Steps” on website
- Can use Anaconda Navigator,  
<https://docs.anaconda.com/free/navigator/index.html>
- Can also just install like any other python package,  
<https://jupyter.org/install>
